

Keywords:

We rely on keywords to match the topic of your proposal to the expertise of the reviewers. We therefore ask you to carefully select **three** keywords from the below list. The chosen keywords should be copy-pasted (and comma-separated) in the designated keywords space on the FAST platform when submitting your application.

Keyword list:

atmospheric science
atom probe tomography
biosphere
climate change
coastal processes
cryosphere
crystallography
deformation microstructures
diagenesis
earth-related building materials
electron microscopy
fluid-rock interaction
geochronology
geochemistry
geomicrobiology
human health
hydrothermal processes
ice sheets and glaciers
marine environment
mineral deposits and ore geology
ocean chemistry
paleoclimate
paleomagnetism
petrology
planetary materials
porous media and flow
radiogenic and stable isotopes
renewables
rheology of materials
rock physics
seafloor processes
sedimentology
snow & ice
soil
spectroscopy
structural geology
volcanology
x-ray microscopy
